

## **Power Injection Gun - PIG**

This high quality brand belongs to the product group “Injector blasting”. The mobile, portable, and simple operating blasting system provides progressive work rates and long-lasting power.

### **Power injection Gun - PIG - Dry System**

The Power Injection Gun is a suction blast system optimized to provide a next to pressure blasting performance. Low weight and good handling makes the injection gun a perfect unit for small and fast changing on-site jobs. Highest mobility, easy operation and a low cost make this unit very often the preferred choice over a pressure blast system.

Area of application	base surface preparation removing of paint, rust, dirt and scale roughening subsequent blasting of mounted parts
Air consumption	4,8 m³/min (at 7bar)
Abrasive media	suitable for every common media
Maximum grain size	1,5 mm
Blasting pressure	0 < > 12 bar
Operating temperature	0°C < > 50°C
