Pipe Cleaning Unit Spin-XL with Carriage

The Spin XL is able to handle pipe diameters between 16” and 60” (400 – 1500mm), depending on the model. The combination of a pneumatic motor and the easy adjusting of the carriage with nozzle interspace enables a consistent blast result. The usage of venturi nozzles comes along with extra power and because of the self-sealing effect the Spin XL has reduced maintenance requirements.

Area of application	Internal Pipe Cleaning
Air consumption	10 - 12 m ³ /min
Blasting pressure	0 < > 12 bar
Operating temperature	-5°C < > 40°C
Features	different carriages for Ø 16" to 60" (400 - 1500mm)
