

Boron Carbide (BC) Stick Up Nozzle

This high quality brand belongs to the product group “pressure blast systems”. Only the perfect configuration and match of all system components in a blast machine enable maximum blasting efficiency. Therefore Clemco offers an extensive and complete range of quality products.

Boron Carbide (BC) Stick Up Nozzle

The robust construction and the one-piece liner leads to a longer nozzle life. Furthermore, the stick up system enables an easy installation of the nozzle. Due to the not needed coupling, the nozzle is specialized for hard to reach areas like constructions.
